

REPUBLIC CAPITAL ACCESS

Relationships Over Transactions

Blu Arctic and Republic Launch *SeaFund*

Blu Arctic, the nation's premier seafood inventory finance company, has teamed with Republic Capital Access, the nation's leading specialty finance company for U.S. Government contractors, to launch *SeaFund*, a comprehensive financing solution for those selling seafood to the U.S. Government.

"With seafood purchases by the U.S. Government up 300% in the last eight years, Blu Arctic knew we needed to partner with a finance company with specialized knowledge of the intricacies associated with financing federal contractors," said Blu Arctic CEO Tom Leissl. "Republic, a [Department of Defense Trusted Capital Marketplace](#) member, was the logical choice as they have financed over 1,200 companies and 4,000 contracts in the last decade."

"We are honored to team with Blu Arctic," said Ed Stucky CEO of Republic. "Blu Arctic's expertise, flexibility, and stellar reputation are second to none. Blu Arctic shares our motto of 'Relationships over Transactions' which is at the heart of all our business dealings."
