Relationships Over Transactions

Republic Announces Personnel Changes

After much thought and consideration, Isaac Ellsworth has decided to explore opportunities in sectors other than finance. “Over the last two years, we have thoroughly enjoyed Isaac’s enthusiasm and upbeat personality,” said Republic SVP Matt Stavish. “While we will miss him, we certainly understand, and are supportive of, his decision. We wish him the best as he transitions to the next chapter of his professional life.”

“The opportunity to work with the Republic team is one I will always treasure,” added Isaac. “It was a special experience to be a part of a team that truly embodies the philosophy of *Relationships over Transactions* and cultivates an atmosphere of integrity and commitment towards their customers.”

Joining Republic as Vice President of Sales and Marketing is Steve Coppinger. Over the last eleven years, Steve has served as an executive with several commercial finance companies in the DC metropolitan area. Earlier in his career, Steve was a key member of Deltek's software solutions team. “Steve’s background, expertise, and character will be extremely valuable as we continue to grow and serve the GovCon community,” said Matt Stavish.
