## Venture Capital Doubles Down on GovCon

---

Defense tech investments and acquisitions were robust from 2016 to 2022 with \$135 billion invested in 4,744 deals. Acquisitions accounted for 71% of VC exits. By 2027, investment in the defense tech market is expected to surge to \$185 billion, according to Pitchbook.

## FEATURED RESOURCE

---

**govmates** is a technology scouting platform that merges the best practices of technology and the human element to promote non-traditional defense contractors within the federal community. The **govmates** scouting tool enables federal stakeholders to rapidly identify desired technologies and solutions. Membership is free at the link below.

## FEATURED CUSTOMER

A customer of Republic has developed, and deployed, a best-in-class data collection and analytics tool that operates globally in low and middle income countries. As real-time monitoring becomes the norm for international development and humanitarian aid programs, this solution results in an increase in the speed, scale and quality for data-driven government decisions.

"Success is not final, failure is not fatal, it is the courage to continue that counts."

— Sir Winston Churchill
